JAST Starts Sales of GAKUEN RX Scholarship

Japan System Techniques Co., Ltd. (JAST) started sales of GAKUEN RX Scholarship on April 1, 2023. JAST developed this product as an addition to the GAKUEN series of strategic university management products, which are the core product of the company’s GAKUEN business.

■ The GAKUEN series

JAST’s GAKUEN series is a strategic university management system that provides comprehensive support for administrative and educational activities. Sales started in October 1994 and more than 400 universities in Japan now use this system, where it provides benefits for instructors and other university personnel as well as students and their parents and other guardians. GAKUEN RX Scholarship further expands the capabilities of the GAKUEN series.

■ Product

GAKUEN series GAKUEN RX Scholarship”

■ Start of sales

April 1, 2023

■ Main features

- (1) More efficient management of scholarships

GAKUEN RX Scholarship performs the centralized management of information for scholarships provided by public-sector agencies, universities and many other organizations. Furthermore, this information can be incorporated in GAKUEN with no need for revisions to scholarship recipient, school transfer and other data. The ability to output files for certifying qualifications and prepare documents for tuition reduction applications further improves the efficiency of administrative tasks.

- (2) Activities for assisting scholarship recipients

GAKUEN RX Scholarship can be used for the disclosure of scholarship information, linked with education data, to students, parents and guardians, and instructors. This allows scholarship program personnel and instructors to oversee scholarship recipients by combining scholarship data with academic data, such as grades and courses taken, the type of scholarship and years used, and transfers. This capability is useful for assisting scholarship recipients, such as by giving students an advance warning that they may be at risk of losing scholarship eligibility.

Example of a GAKUEN RX Scholarship page

(3) Centralized scholarship management linked with school data

The GAKUEN series was developed for the purpose of performing the integrated management of all applicable data. GAKUEN RX Scholarship is structured for centralized data management for scholarships that encompasses school registration and other types of information. This makes possible the highly effective utilization of data for university management tasks and support for students.
