Notice of Organizational and Personnel Changes

Japan System Techniques Co., Ltd. (JAST) will make following organizational and personnel changes on April 1, 2024.

1. Organizational Change

The business climate for the operations of JAST is changing with the emergence of “ultra-smart” technologies and advances such as generative AI, DoT (Deep Learning for the Internet of Things), low-code/no-code software development, beyond 5G (6G) and the digital transformation. Changes in the structure of today’s digital society are also taking place. Continuing to succeed in the environment will require the speedy execution of strategies in all of JAST’s businesses, the creation of new services and innovations for internal business processes. Furthermore, JAST needs to build a stronger infrastructure to support the growth on a global scale as well as frameworks for business operations that can be passed on to the next generation. As one step to accomplish these goals, JAST is making the following organizational and personnel changes.

2. Personnel Changes

Changes for managers at the deputy department manager and general manager levels and higher
